WORK EXPERIENCE

SOFTWARE ENGINEER   2021-2023
Medallia - Madrid

Led UX analysis for diverse client webpages. Spearheaded app redesign, by creating a React component library and the integration with a new API for data-driven components. Managed deployment pipelines and environments.

FULL-STACK DEVELOPER   2019 - 2021
Wunderman Thompson - Buenos Aires

Developed and maintained both frontend and backend components, handling business logic, data manipulation, and web content management. Proficient in email marketing and automation for comprehensive web solutions.

DATA ANALYST (PAYROLL)   2017-2019
Police of Buenos Aires - Buenos Aires

Managed payroll data analysis, reporting, and discrepancy resolution in collaboration with cross-functional teams. Identified process improvement opportunities, ensuring data integrity and confidentiality.
